PROFILE SUMMARY

Software Developer with 3+ years of experience specializing in Python, Scrapy, and Django. Skilled in developing scalable web scrapers, automating data pipelines, and delivering accurate datasets for e-commerce & fashion domains. Proficient in Linux server handling, Putty, and web technologies including React.js. Strong problem-solving skills with a collaborative, team-oriented mindset.

CORE SKILLS

Programming:	Python, Django, Pandas, NumPy
Web Technologies:	HTML, CSS, React.js, JavaScript (basic)
Tools & Platforms:	Linux, Putty, Jira, PyCharm, SVN, WinSCP
Web Scraping:	Scrapy, XPath, CSS Selectors, Regex, JSON
Databases:	MySQL
Professional Skills:	Team Leadership, Collaboration, Problem-Solving, Debugging, Automation, Data Mapping

WORK HISTORY

Software Developer, 07/2022 - Current
KrawlNet Technologies Pvt Ltd – Pune, India
• Developed and deployed 500+ custom crawlers for e-commerce & fashion platforms, enabling large-scale product, pricing, and catalog data collection.
• Automated feed validation & data cleansing processes, reducing manual errors by 40% and ensuring high data accuracy.
• Designed and maintained Django-based backend modules and React.js components for internal web applications, improving usability and performance.
• Utilized Putty & Linux environments for crawler deployment, server monitoring, and log management.
• Processed and transformed data using XML, JSON, and Regex, ensuring compatibility with client requirements.
• Monitored crawler performance, implemented retry/error handling, and optimized pipelines to improve extraction efficiency by 30%.
• Collaborated with cross-functional teams via Jira, ensuring timely delivery of accurate datasets and smooth project execution.

EDUCATION

Bachelor of Engineering: Computer Science & Engineering, 01/2021
JSPM's Imperial College of Engineering & Research
GPA: 7.08
